## OKLAHOMAN **ON HISTORIC**

John Rhoades Writes Interest-

HE VISITS THE ALAMO

And Gathers Inspiration From Its Wonderful Tragedy.

San Antonio, Tex., March 11.-If a person on a vacation cares to see and contrast the ancient with the modern. the old world with the new, and at the same time study early American history in the place of its making he would back to the beginning of the eighteenth century and was originally a mission station of the Catholic church, founded for the double purpose of converting the Indians and as a bulwark to the ever increasing demands of the French in their claims of Spanish terrstory. These pleted in 1718, is the famous Alamo, which was used as a monastery until Mexican rule. The friction caused by this discontent bigged into open rebol-

avowed purpose of ravishing it to the banks of the Sabine, that begin the boundary between the United States and probibition state. If Mrs. Nature would be subjected and enterprising personal would have follow who are measured would have follow who are make a dime museum of herself. Texas, the Texans, being wholly unprepared, would have fallen easy victime if it had not been for the self-sucrifice and firm stand of 169 of her bravest sons under the leadership of Colonel Bowie. They sought refuge is the Alamo and for twelve days with stood the repeated assaults of the entire than surrender. Before the final assault the walls, crumbling from the furious cannonade, had been reduced to had their height, which, with the fallen root of dirt filled the room so that there was no longer shelter for the devoted band.

Colonel Howle was sick of a fever and did not take part in the last few days fighting, being confined to his cot, un able to talse. His room was a stone monks. Before the door of this coll Davy Crocket made his last stand, fight ing doggedly on and leaving a circle of dead in front of him as a monument t his prowers. Next behind him. who has just returned from the east, chief's cot. After the dispatch of Travis the infuriated soldiers rushed in plung-Bowle and four of them-two on each side-lifted his body upon their bayonets for the others to see. The women and children, who were in another call, were spared and two-mother and daughter were mounted upon Santa Ana's horse

time to rally their scattered forces and was fought at San Jacinto, plains where the Texaus, with the battle-cry of "Remember the Alamo," completely routed the Mexican forces and captures Santa Ana. With him at their mercy they die tated their own terms, securing the

After his release, however, Mexico repudiated his action and still claimed the state as one of her provinces. It was this claim that caused the war between Mexico and the United States, when the latter country admitted Texas to the

# UNDER THE SNOW.

## Ghastly Truths Revealed on the Disappearance of Winter's White Mantle.

dangers, and that is to fertify the human office, 25 W. 14th St., New York City.

Deadly dangers lurk in the ground left bare by the departing mow. All Winter long there have been accumulating deadly disease germs.

These have been protected and kept alive by the covering of sacw and new, with the first warm days, these disabboringing microbes are awakened by the rays of the sam, and as the ground dries they are carried to all corners of the community in the dust that is blown everywhere by the Spring winds.

The human body at this time to particularly succeptible to these germs, especially the germs of fevers. The system has been depinted by the foregoing Winter. The holost is singgish and filled with impurities. The nerves have not recovered from the tension they have been under for the past months.

It is therefore, not strange that these recens of disease find fertile ground; in which in thrive, doutish and develop into deadly life.

Spring it this time of year when one should form a strange that these recens the problem of the past months. There is here were character to the read and the system is depleted, one should dread any severe illness. The virality is at a low elsh. Thore is here one way to ward off such dangers, and it is on this account that futalities are so much preserve during the Spring months than at any other time of the year.

There is but one way to ward off such dangers, and that is to fertily the human dangers.
